

# COMPLETE FLAT-RATE REPAIR FOR BILL ACCEPTOR

## Program Highlights

- Flat-Rate repair including return freight
- Full Warranty on all repairs
- Factory updates installed
- MEI and Conlux Warranty serviced FREE
- Currency Updates Installed if available

**What's Included:** This Flat-Rate Repair Certificate entitles the purchaser to receive a complete repair and service of a single bill acceptor unit. Belts, drive rings and other normal failure items are included in the repair cost. If your unit will accept newer currency updates via download, we will provide that service as well. You will receive a full 1 year warranty on repairs performed on all current models; All older models receive a 180 day warranty. We will also install all factory updates to ensure your unit has the most current production specifications. All units are cleaned, serviced and quality checked before being returned to the customer. Please be aware that many older units may require used parts to be installed as no new parts are available. We will use used parts only as a last resort to get you unit serviced.

**What's NOT Included:** Repair certificate does NOT include broken, damaged or missing parts. These items will incur a separate charge. Flat-Rate does NOT include microprocessors, EPROM's or complete module or control board replacement. If your unit falls into this category, we will contact you as to the cost of final repairs. If you choose NOT to have your unit repaired you will receive a full refund less the return freight. We repair 95% of all makes of bill acceptors.
